DETAILED ACTION

This office action is in response to application filed February 27, 2004.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: Giambalvo teaches a ternary CAM device having in addition to a data entry and a ternary mask entry, one or more additional control words which can specify a net mask length and status. However, the allowed claims 1, and 12 teach a mask specifier that indicates the state of the mask word, and wherein the search key includes a search component, and a search mask component, and wherein the ternary CAM word is compared with the search word component and the mask specifier is compared with the search word component, and generating a match signal associated with a compound entry that matches the search key. Allowed claim 5 teaches concurrently determining a first and second group of bits of a search key mach a first and second group of bits of the entry of the CAM array, wherein the first and second group of bits of the entry having an associated group of local mask bits.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mehdi Namazi whose telephone number is 571-272-4209. The examiner can normally be reached on Monday-Friday 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Reginald Bragdon can be reached on 571-272-4204. The fax phone
